Art Unit: 1742

Applicant's arguments have been considered but are not persuasive. Applicant has argued that the claimed invention uses specific chemical compounds that are only disclosed broadly in the prior art. However, the prior art discloses the specific chemical used in the claimed invention, despite it being one amongst a group of possible chemical used, and therefore it is required that there be some showing of unexpected results in order to show the criticality of the specific chemical compound in the claimed invention, and applicant has not provided such a showing. With regards to applicant's argument that the term "dry in place" amounts to a different structure in the final product, drying the compound in place is a method step and not a structural limitation. If a different structure of the composition is obtained, it is advised that applicant include that structure in the claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew E Wessman whose telephone number is (703)305-3163. The examiner can normally be reached on Monday through Friday, 8:00am to 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (703)308-1146. The fax phone numbers for the organization where this application or proceeding is assigned are (703)872-9310 for regular communications and (703)872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0661.
